

Amendments to the Abstract

Replace the abstract with the following replacement
abstract:

~~Assembly comprising a mobile telephone
and an auxiliary memory~~

~~Assembly comprising~~ An assembly includes a mobile telephone
supplied by a self-contained power source, an auxiliary memory, and
a charger arranged to charge the power source. ~~[[,]] the said~~ The
telephone ~~being~~ is provided with a memory arranged to store therein
data of the operator and data introduced by an owner of the
telephone. The loading of the data stored in the memory of the
telephone to the auxiliary memory is carried out on the basis of
the detection of a charging of the power source.

~~Figure 2.~~

For the examiner's convenience, a clean text version of the replacement abstract (80 words) is presented below:

An assembly includes a mobile telephone supplied by a self-contained power source, an auxiliary memory, and a charger arranged to charge the power source. The telephone is provided with a memory arranged to store therein data of the operator and data introduced by an owner of the telephone. The loading of the data stored in the memory of the telephone to the auxiliary memory is carried out on the basis of the detection of a charging of the power source.
